To Whom It May Concern

Mimoon AbuAta was employed as a full time undergraduate from October 2005 – February 2006.

Projects that Mimoon worked on included residential and multi-residential projects, office fitout and childcare projects. Mimoon's experience during his employment included the following;

- General correspondence,
- Site measure up and drafting of existing conditions drawings,
- Preparation of Town Planning documentation including site analysis drawings, plans, elevations, and shadow diagrams,
- Drafting of schematic design and design development proposals,
- Working drawings for Building Approval under supervision,
- Joinery and window schedule documentation,
- General office duties.

During his employment Mimoon has proven to be a reliable and diligent member of staff, often working autonomously. Mimoon is quick to learn and willing to undertake new tasks and experiences, and is prepared to ask questions when necessary.

I would recommend Mimoon as an employee to any prospective employer.

Please do not hesitate to contact the undersigned on (03) 9510 9697 should you wish to discuss Mimoon's experience further.

Yours faithfully,

Darren Johns
